

DOLLY PREMIUM

Combined machine: vacuum and water injection/extraction car seat cleaner

MANAGEMENT WITH PLC

ELECTRONIC COIN ACCEPTOR

CYCLONIC SUCTION SYSTEM

CYLINDRICAL CARTRIDGE FILTER

AUTOMATIC FILTER CLEANING

CONNECTION TO MAINS WATER

AUTOMATIC DRAIN

LOCKABLE COIN BOX

REMOTE MANAGEMENT

2 configuration for horizontal or vertical installation on the bay in relation to the car.

Standard features and equipment:

- ✓ Structure in Aisi 304 stainless steel
- ✓ ABS cover
- ✓ Full-length stainless steel door hinge
- ✓ Vandal-proof 3-point lock
- ✓ 6m hose with rotating sleeve and suction nozzle and injection/extraction nozzle
- ✓ Mains water connection
- ✓ Automatic drain with safety floater
- ✓ Electronic management with PLC
- ✓ Electronic coin acceptor
- ✓ Lockable coin box
- ✓ LED operation lights
- ✓ Back-lit LED steel buttons
- ✓ Turbine 230 - 400 V
- ✓ Cyclonic cleaning system with cartridge filter and automatic filter cleaning with compressed air (requires compressed air connection)

Optional (on request):

- ✓ Coin acceptor protection
- ✓ LED lighting kit
- ✓ Card reader (cashless)
- ✓ Turbine 3 kW
- ✓ Remote management
- ✓ Boom
- ✓ Stainless steel cover
- ✓ Safety bars
- ✓ Antifreeze kit
- ✓ Up to 2 optional service kits

- AR compressed air kit (requires external air)
- BA antibacterial Kit (requires external air)
- SA parfume/sanitizing Kit
- NG tire blackening kit
- VE glass cleaner kit
- LC dashboard polish kit

CYCLONIC SUCTION SYSTEM WITH AUTOMATIC FILTER CLEANING

The cyclonic suction system

When we clean the car, owing to the vacuum effect the dust is sucked in together with the air. Inside the bin, thanks to the cyclone cone, a vortex is created depositing the dirt in the recovery bin while the air comes out passing through the filter. Furthermore, the cyclone cone protects the filter by preventing it from coming into contact with sucked-in solids.

The automatic filter cleaning

At the end of each suction service, the tank automatically discharges the compressed air into the filter, effectively eliminating the fine dust attached to it. This operation has a dual purpose, it keeps the filter clean by ensuring a good filtration of the outgoing air and consistently guarantees powerful suction. The filter is maintenance-free, however a quick cleaning every 6 months is recommended.

Remote management

The machine, connected to the internet, sends data to a cloud server where dedicated software processes it and makes it available to the operator, who can monitor in real time the machine's operating status, income, and a series of alerts.

In the same way, the operator can send commands to the machine to change the cost and duration of selections, start a specific service, and reset or shut down the machine.

Model:

Code	Model	Volt	Power	m ³	Det. tank	Water	Pump	Dirty Tank	Weight
CW04230UM	Dolly Premium 230*	230	4,6 kW	2x320	10L	2>5 bar	2>6 Lt/h	35 - 50 L	235 Kg
CW04400UM	Dolly Premium 400*	400+N	4,6 kW	2x320	10L	2>5 bar	2>6 Lt/h	35 - 50 L	235 Kg

Optional on request:

Coin acceptor protection cod. PG
LED lighting kit cod. LE
Stainless steel cover cod. CIS
Boom cod. BR
Safety bars cod. BSS
Card reader (cashless) cod. PK
Turbine 3kW - 400V cod. T3KW
Remote management cod. CLOUD

Compressed air kit* cod. AR
Perfume/Sanitizing kit cod. SA
Antibacterial kit* cod. BA
Dashboard polish kit cod. LC
Tire blackening kit cod. NG
Glass cleaner kit cod. VE
Antifreeze kit cod. AN

*Requires external air
